

PLEASE NOTE:

EMAIL TO REBOOT FROM JAN 20, 2005 ON MUST BE ADDRESSED TO REBOOT20850@VERIZON.NET . THE PREVIOUS EMAIL ADDRESS IS NO LONGER VALID.

GERALD ROSENKRANTZ, REBOOT COORDINATOR

Here's the basic information on our program:

1. The Capital PC User Group (CPCUG) is a non-profit (501c3) all volunteer, educational and information organization based in Rockville, MD. Formed in 1982, CPCUG is an organization of over 2,000 members throughout the Washington, DC metropolitan area. Membership in CPCUG is a mere \$42 annually. CPCUG's main office phone number is 301-762-9372. For all the latest go to www.cpcug.org or www.cpcug.net.
2. CPCUG's computer recycling activity which we call Project Reboot solicits donations of new and used computer equipment and software. We have a workshop/storage facility in Rockville where our volunteers (some experienced, some just learning) perform testing, diagnostics, repairs, upgrades, etc. The equipment is then redistributed without cost to non-profit, educational, faith-based, and charitable organizations. We help churches, synagogues, schools, senior centers, groups that work with low and moderate income families, and other needy organizations.
3. Reboot accepts all types of computer equipment. Computers can be working or non-working. However, anything older than a Pentium 200 Mhz class will probably be broken down for usable parts and the rest turned over to a scrap metal facility. Peripheral equipment such as monitors, printers, scanners, keyboards, mice, etc., must be in good working condition. Laser and inkjet printers must contain usable toner/ink cartridges.
4. Also accepted are extra parts in good working order, as well as legally transferable software and software licenses. The spare parts we need these days are Sound Cards and 56K Modems with device drivers, speakers, power and printer cables, multi GB hard drives, fast CD-Rom drives, and memory chips (RAM).

NOTE: We no longer accept monitors that have an earlier than 1995 manufacturing date, or those that are pre-SVGA. We also no longer accept dot matrix printers.

We also do not work with Apple or Macintosh equipment. However, the Washington Apple Pi user group also located in Rockville has a similar reclamation program. They can be reached on Mondays, Wednesdays, and Fridays from 10 am - 3 pm on 301-984-0300.

5. Reboot's hours are:

Monday: 2-6pm

Wednesday: 10am-4pm

Donations may be dropped off during these hours.

6. The address is 101 Fleet St., Rockville, MD 20852. It's a white frame house at the intersection of Maryland Ave. and Fleet St. There is parking in the driveway to the left of the house or in the large lot behind the house.
